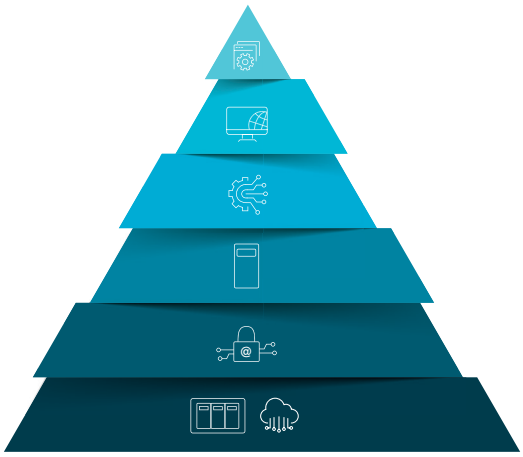
TOPMAIL ATP

ADVANCED THREAT PROTECTION – PROTECTION FROM RANSOMWARE, CRYPTOLOCKER...

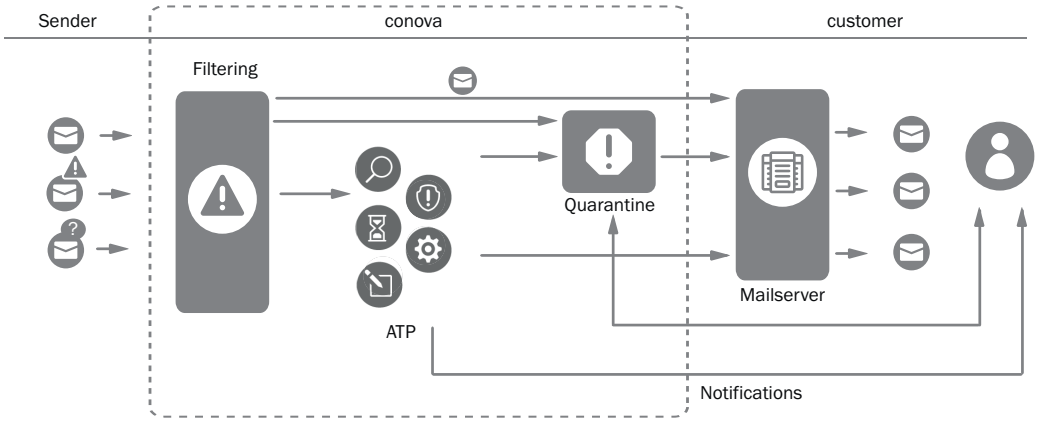
Protect your business against targeted and individual attacks from the first malicious E-mail with conova TopMail ATP. Highly innovative forensic analysis engines ensure that any attacks are immediately stopped. Concurrently, the solution provides information regarding the attacks on your company.

Highlights at a glance

- Effective protection against Ransomware, Cryptolocker, CEO fraud, etc.
- Detects highly complex and sophisticated E-mail attacks
- URL rewriting and URL scanning offers additional security
- Real-time notification of company attacks
- Simple central management with 24/7 monitoring
- Highest compliance, transparency and control
- No costly investments in own infrastructure required
- Service without maintenance and updates of hardware and software



conova TopMail ATP integrates seamlessly with spam and virus filters (TopMail SV). E-mails that have passed the first test undergo further analysis by conova ATP. The service also reviews attachments and looks at their behavior in detail. As soon as TopMail ATP discovers an attack, an E-mail notification is sent to the IT department to immediately inform you of the potential threat.



TopMail ATP	Set-up costs (one-time expense)	price per user per month
up to 25 Users	EUR 249.00	EUR 3.00
from 26 to 100 Users	EUR 249.00	EUR 2.82
100+ Users	upon request	upon request

Notes:
- TopMail SV is required to use TopMail ATP.
- Monthly billing is based on the amount of system users - group and alias addresses and alias domains are not counted.

The cited prices are valid for a minimum contract period of 36 months.
