

TOPFIREWALL FOR MICROSOFT AZURE

EFFICIENT AND INDIVIDUAL PUBLIC CLOUD SECURITY SOLUTIONS – MANAGED BY CONOVA

A security concept is not only a challenge – it is also an opportunity. conova's sophisticated security solutions offer individual protection against undesired access. The certified conova specialists ensure that critical operation of the firewall infrastructure runs smoothly – this is also available 24/7 upon request. Proactive monitoring ensures the highest possible level of security for your systems in the public cloud.

Highlights at a glance

- Regular implementation of security updates for maximum security and availability
- Automatic subscription and license management
- No need to develop complex security know-how
- 24/7 operation and support
- Full transparency of availability via the online portal and app
- Full NextGen firewall functionality to secure your Azure infrastructure

¹⁾ conova uses the Barracuda Cloud for ATP service (see: de.barracuda.com/atp). This requires data to be uploaded and the upstream bandwidth is used.

Notes:

- Site-2-site Tunnel Monitoring optional, provided the customer can be reached by phone during the SLA period.
- The cited prices are valid for a minimum contract period of 12 months.
- The costs for the Microsoft Azure VMs and associated services (see also <https://azure.microsoft.com/de-de/pricing>) are not included in the above mentioned costs. Billing can be handled via conova, an existing partner or directly.
- Azure reference-VM: S = F1s, M = F2s, L = F4s, XL = F8s (status from July 2020)
- Get your Microsoft Cloud licenses from conova now. As a Microsoft Cloud Solution Provider Direct (first tier), we now offer everything from a single source. With contracts made with a minimum 12-month term, we grant you discounts on Microsoft Azure and Microsoft Office 365 licenses. Billing takes place dynamically according to use.

Further options can be found in our current price list.
