TopWeb Statistics powered by Matomo is an open-source web analytics tool that provides detailed, real-time reports regarding traffic, search engines and search terms, languages, popular pages, and more. All statistics are accessible via open interfaces (API), in many formats including .xml, .json, .php, csv. Additionally, Matomo offers a user interface that can be configured individually and enables you to move the various widgets via drag and drop.

Billing yearly in advance

- ¹⁾ By using PHP-FPM, we enable you to switch between different PHP versions. Selectable are versions with current manufacturer support, depending on the availability for the respective operating system.
- ²⁾ For Functions and limitations see letsencrypt.org/docs

Notes:

- The cited prices are valid for a minimum contract period of 36 months.
