

# FACILITIES GUIDE – BARRACUDA CLIENT-2-SITE VPN

#### **1** • VPN-CLIENT SOFTWARE DOWNLOAD

You can download the latest version of the VPN client software from the following link: <a href="https://downloads.com/niss/vpn/">https://downloads.com/niss/vpn/</a>

Username and password will be requested. You can use the following data:

Username	datashare
Password	RN8zk0ycwhff

The download portal looks something like this:

## Index of /niss/vpn

Name	Last modified	Size Description
VPNClient 5.2.1 OSX.zip	2021-08-23 10:58	4.2M
VPNClient 5.2.2-17 Windows arm64.exe	2021-11-26 09:27	26M
VPNClient 5.2.2-17 Windows x64.exe	2021-11-26 09:27	34M
VPNClient 5.2.2 Linux.tar.gz	2021-11-26 09:27	3.6M
legacy/	2021-11-26 09:31	-

Please always download the latest version of the VPN client software, unless you are instructed to do otherwise by a conova support employee.

### 2 • INSTALLATION OF VPN-CLIENT SOFTWARE

Run the downloaded installation file as the administrator. You should see the following window:

Click on 'Next' to continue. This should lead you to the license agreement:

Click on "I accept the terms in the license agreement" and continue by clicking 'Next'.

This should lead you to the following choices:

🖟 Barracuda Network Access Client 5.1.	2 - InstallShield	Wizard	×
Setup Type Choose the setup type that best suits yo	our needs.		Ć
<ul> <li>Please select a setup type.</li> <li>VPN Client Installs all core components require the TINA protocol.</li> <li>VPN Client + Personal Firewall + Additionally installs all components to this client.</li> <li>Custom Choose which program features yo installed. Recommended for advantage</li> </ul>	• Health Monito to provide advan ou want installed a	ring ced security feature	'S
InstallShield	< Back	Next >	Cancel

Here, please choose the option "VPN client' and click on 'Next'. The following window will appear:

🖟 Barracuda Network Access Client 5.1.2 - InstallShield Wizard	×
Application Settings Please configure your application settings as needed.	Ć
General / VPN Client Master Password Allow user-specific VPN profiles	
Personal Firewall / Health Monitoring         Enable Barracuda Personal Firewall         Firewall Always ON         Enable IPv6 Router Advertisement Guard         Enable Barracuda Health Agent	
InstallShield < Back Next > Ca	ncel

Here it is important to check the box called 'Allow user-specific VPN profiles'. You should also leave the field called 'Master Password' empty. Then click on 'Next'.

You should now see the following window:

🔀 Barracuda Network Access Client 5.1.2 - InstallShield Wizard	×
Ready to Install the Program The wizard is ready to begin installation.	Ć
Click Install to begin the installation.	
If you want to review or change any of your installation settings, click Back. Click Cano exit the wizard.	el to
InstallShield Kenter State Sta	ncel

Begin the installation by clicking 'Install'. Wait until the installation is complete:

Once the installation is complete you should see the following window:

Close the installer by clicking on 'Finish'. You should then see the following tray icon in the system tray:

### **3** • IMPORTING THE VPN PROFILES

You will receive a VPN profile in the form of a .vpn file from a conova support employee that contains all the settings for your client-2-site VPN connection.

You can import the profile by double-clicking on it.

Once the profile has been successfully imported, you should see the following message:

Your client-2-site VPN connection is now ready to be used! You can start the VPN client by double clicking on the aforementioned tray icon:

$\equiv$	$\times$
Barracuda VPN Client	
Enter credentials to connect to	
VPN_User ~	
User Password	
Connect	
へ	7

Now enter the VPN password you were given from a conova support employee and click on 'Connect' to establish a connection!
