HPE SYNERGY SOLUTIONS

Client Virtualization

Data management

Business applications

Data analytics/Big Data

Private/Hybrid cloud

Containers

DevOps

Software-Defined Storage

Virtualization

HPE SYNERGY ECOSYSTEM

Transform to software-defined

Streamline IT Ops and Facilities

Compose for any workload

Automate infrastructure for DevOps

Connect from core to cloud

Optimize across clouds

Composer

Composable Frame

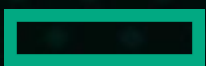

Composable Fabric

Composable Compute

Composable Storage

FABRIC

Extending HPE Virtual Connect technology to HPE Synergy

Ethernet, converged FCoE, and native Fibre Channel

Wire once connectivity integrates with existing networks

Traditional L2/L3 CLI switch options available

HPE Virtual Connect SE 100Gb F32 Module (SAN)

HPE Virtual Connect SE 32Gb Fibre Channel Module

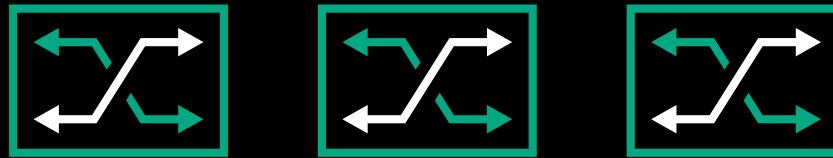

FLUID RESOURCE POOLS

1

Storage (virtual WWID)

Networking (virtual mac addresses)

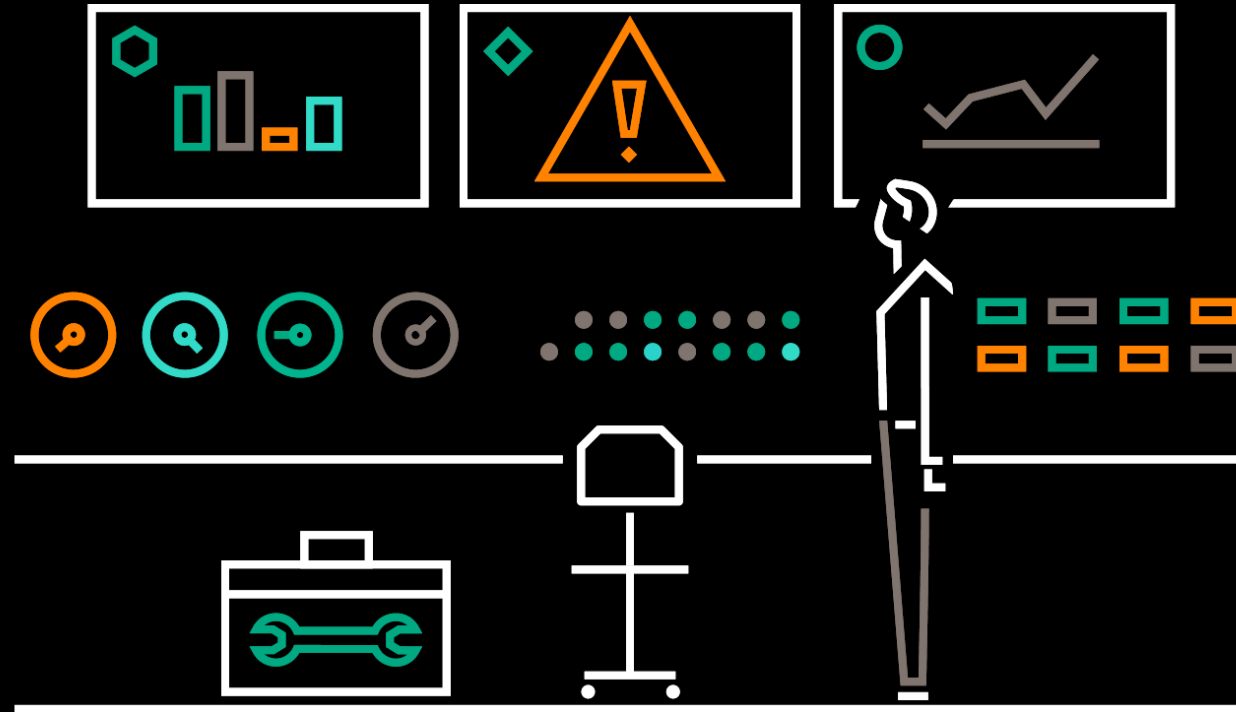

Compute

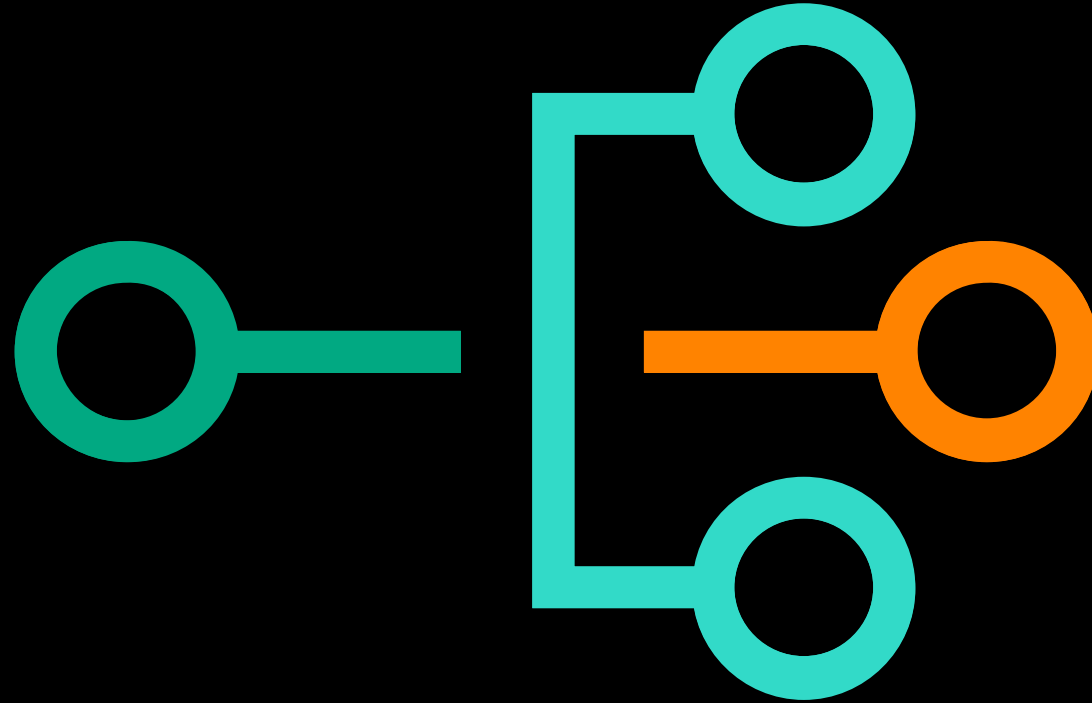

SOFTWARE DEFINED INTELLIGENCE

2

UNIFIED MANAGEMENT

HPE OneView

Partner Ecosystem

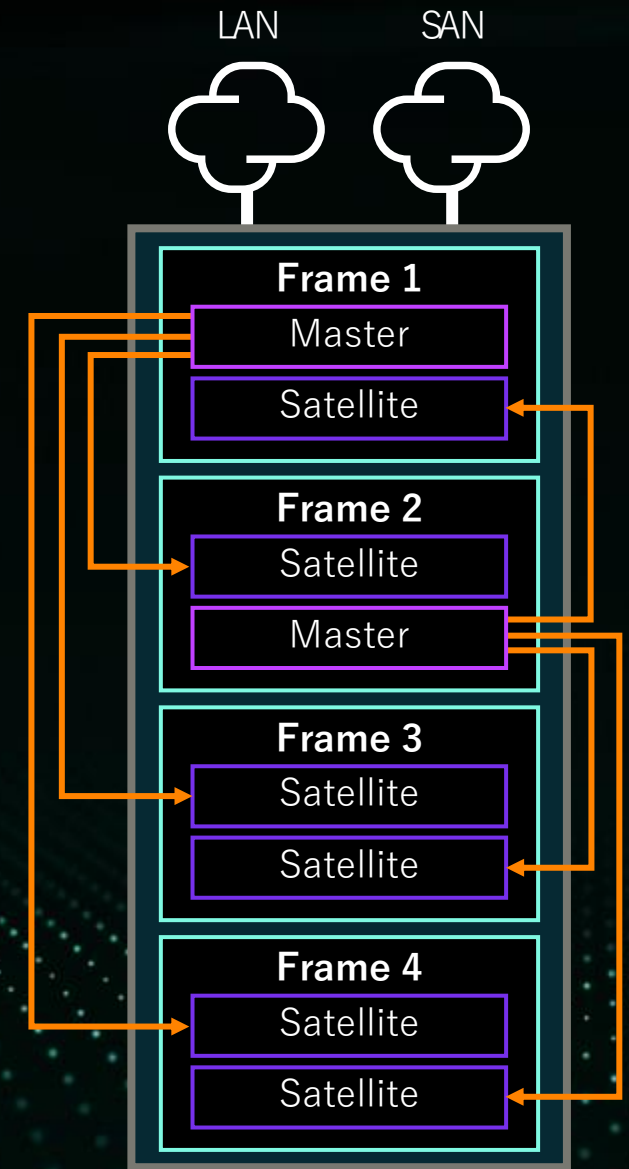

LOGICAL ENCLOSURE

Reduce hardware complexity and cost

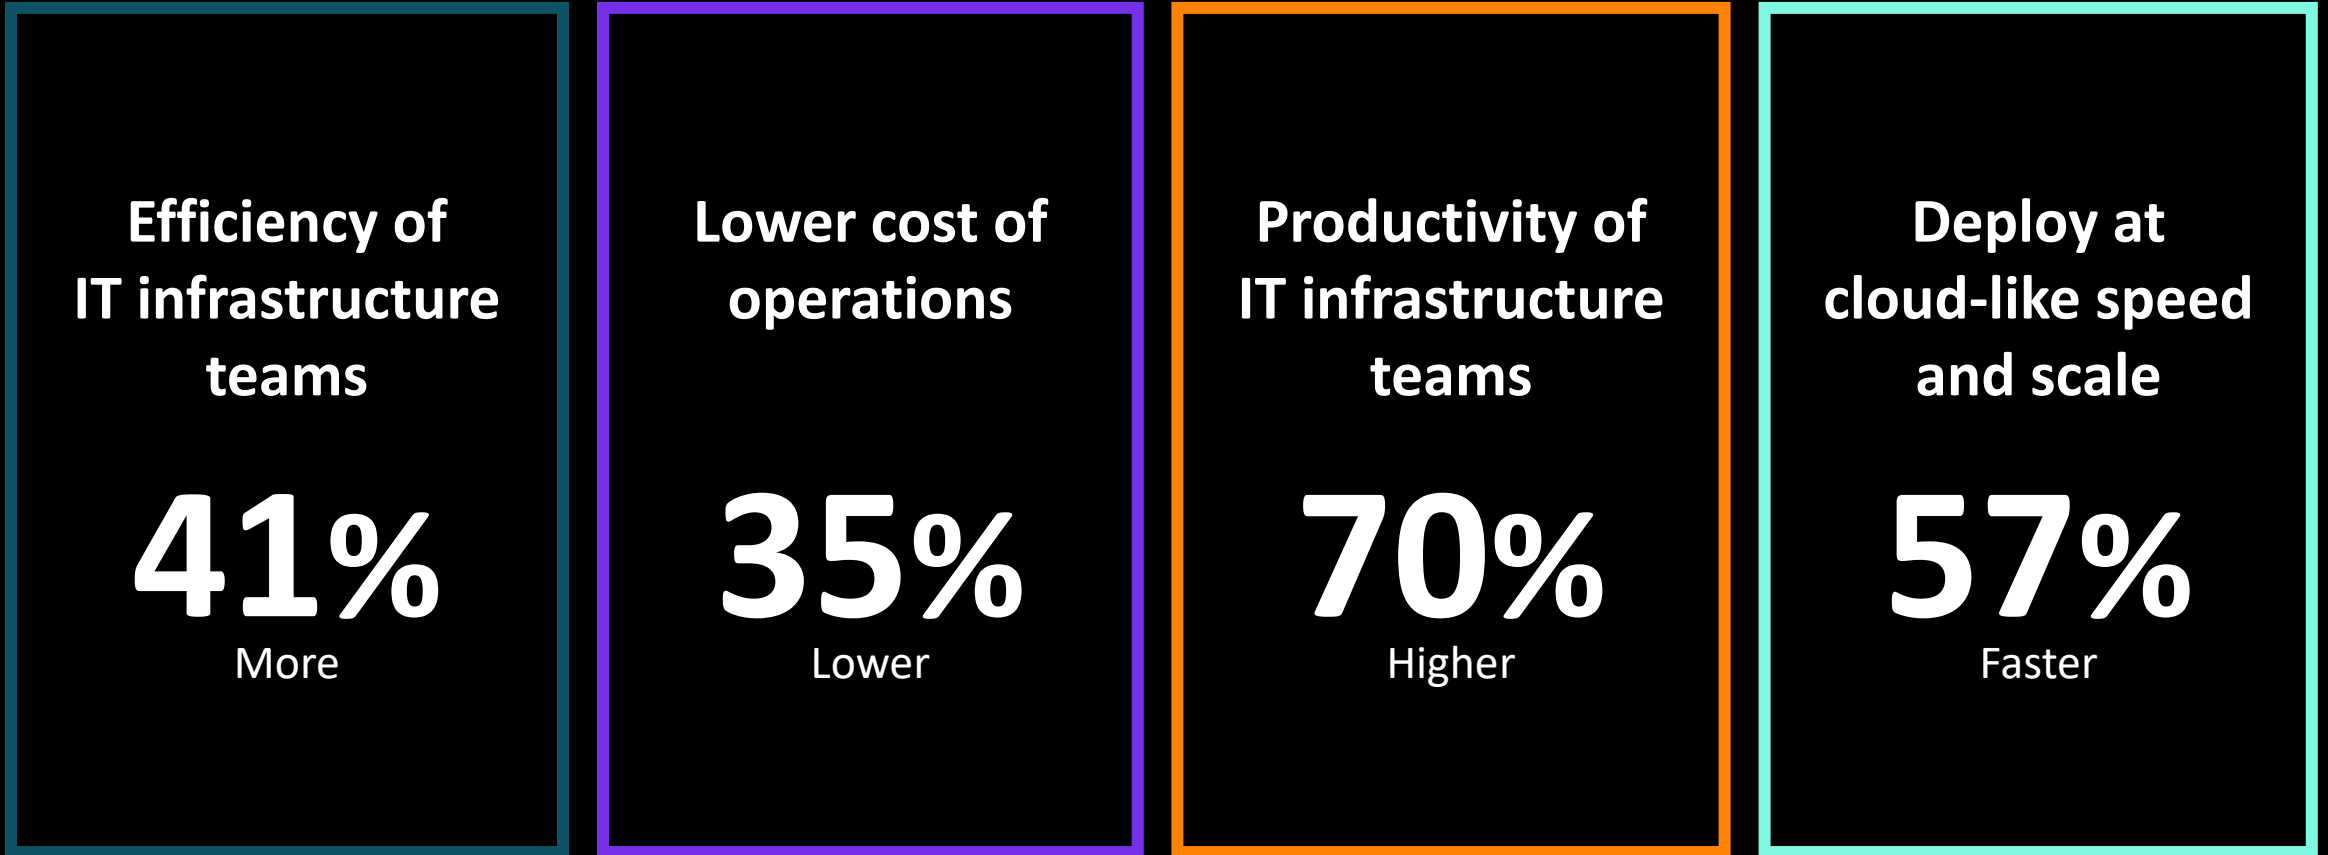

Maximize data throughput and minimize latency

Simplify management

Efficiently scale fabrics up to 5 frames

UNLOCKING VALUE

Based on IDC study (FEB 2021): [Quantifying the Business Value of Enhanced IT Agility and Performance with HPE Synergy](#)

CONOVA & SYNERGY

1. Alles richtig gemacht
2. Maximale Flexibilität und Verfügbarkeit für Endkunden
3. Einheitliches Management über OneView
4. Zukunftsorientierte zentrale Infrastruktur über mehrere Generationen

THANK YOU
