EMERGENCY WORKPLACES IN CASE OF CRISIS SITUATION SECURE BUSINESS CONTINUITY

Emergency workplace locations ensure that operations can be maintained and that interruption of important business processes can be kept to a minimum in a crisis. However, one important point is often overlooked: Where should emergency operation take place if the office space can no longer be used due to a fire, for example? Comprehensive business continuity management must also include emergency workspaces for employees in crisis situations. conova now offers its customers on-site workspace.
