TOPMAIL MICROSOFT 365 PROTECTION

YOUR SECURITY AND COMPLIANCE MANAGEMENT FOR MICROSOFT 365

By combining premium spam and virus protection with advanced threat protection (including sandboxing), you protect your IT against highly complex attacks. Further, you have the opportunity to implement 100% encrypted e-mail communication with your communication partners – which, in some areas, is a prerequisite for DSGVO compliance. Additionally, it ensures business continuity for E-mails. In the event of disruptions to the public cloud infrastructure, a backup system is available that enables full access, including sending and receiving.

Highlights at a glance

- Award-winning spam and virus protection solution
- Advanced threat protection and sandboxing
- Business continuity through constant availability of a backup mail system
- Revision-compliant e-mail archiving
- Simple, fully integrated encryption solution
- URL Malware Control
- Email live tracking
- Content Control

Incoming and outgoing e-mails are scanned by our TopMail Microsoft 365 Protection Solution and encrypted and archived upon request. A new compliance filter plus extended functions added to the 'Allow and Deny' list offer you even higher service quality as the customer.
