

TOPCONNECT DATACENTER

YOUR PRIVATE CONNECTION TO THE PUBLIC CLOUD

With TopConnect Datacenter, you are getting a direct, private connection to public cloud providers such as Microsoft Azure, Amazon AWS and Google Cloud Platform (GCP) via Frankfurt or Amsterdam. It is characterized by high performance and a direct SLA with the respective hyperscalers. conova takes on the operation with their usual high quality and, upon request, can take over the routing.

Highlights at a glance

- Direct and redundant WAN connection to the Public Cloud
- Private connection
- Cloud Provider Service Level Agreement
- High data throughput
- Reliable performance
- Low latency
- Ideal for hybrid scenarios (conova & public cloud services)
- Optional: MultiCloud Connect

YOU CAN CHOOSE FROM THE FOLLOWING OPTIONS TO CONNECT TO PUBLIC CLOUDS:

DATACENTER AMS (SINGLE)

- Hybrid Cloud solution
- Encryption between data center & PoP
- Can be ideally combined with other conova and public cloud services

DATACENTER FRA (STANDARD*)

- Hybrid Cloud solution
- Encryption between data center & PoP
- Can be ideally combined with other conova and public cloud services

The provision of TopConnect in the conova data centers not only enables connection to the Public Cloud, but also the use of hybrid solutions. Consequently, this single connection allows you to combine local resources in Austria with the advantages of public cloud services. On request, even across regions and across public clouds. conova guarantees the connection in the required bandwidth from its own data centers to the transfer point in the Public Cloud and also handles the setup and operation of the network configuration required by Cloud Service Provider.

TopConnect Datacenter ¹⁾	Set-up costs (one-time expense)	Price per month
Datacenter AMS Single (from 100Mbit to 100Gbit)	upon request	upon request
Datacenter FRA Standard (from 100Mbit to 100Gbit)	upon request	upon request
Other bandwidths upon request		
TopConnect extensions		
Routing up to 10Gbit	upon request	upon request ²⁾
Routing up to 100Gbit	upon request	upon request ²⁾
Selection of an availability zone ³⁾	optional	optional

* Line redundant

¹⁾ SLA Economy included, SLA Business and First Class (24/7) optional – see SLA data sheet.

²⁾ Includes 2 virtual routers.

³⁾ Choose from the following availability zones: VZ-DC4, VZ-DC5 in the Salzburg city area, VZ-DC6 in the region of southern Salzburg.

Notes:

- Minimum contact period of 36 months.
- Get your Microsoft Cloud licenses from conova now. As a Microsoft Cloud Solution Provider Direct (first tier), we offer everything from a single source. With contracts made with a minimum 12-month term, we grant you discounts on Microsoft Azure and Microsoft 365 licenses. Billing takes place dynamically according to use.
- Public cloud provider charges the costs for cloud connectivity directly to the end customer. If you are already a public cloud account holder, you can configure the services directly in the portal. We would be happy to assist you or take over the setup for you.

Further options can be found in our current price list.
