TOPSOFTWARE PACKAGING

YOUR THIRD-PARTY APPLICATION MANAGEMENT SOLUTION FOR MICROSOFT INTUNE

With TopSoftware Packaging, you can centrally manage third-party applications as well as your own applications and keep them automatically up to date. This solution is based on Patch My PC, is specifically designed for Microsoft Intune and supports Windows (x64/x86/ARM) as well as macOS. The platform automatically packages applications and then imports them into the connected Intune tenant. Audit logs of deployment activities and user access ensure transparency and enable rapid traceability.
